

Super Spreaders and Super Penetrants with Added Functionality

Silwet* multifunctional spreaders and penetrants provide excellent spreading and penetration with advanced performance for varying weather and spray application conditions.

LOW-DRIFT FORMULATIONS REDUCE RISK OF OFF-TARGET APPLICATION

FILM FORMING FOR RAINFAST COVERAGE WITH LOW PENETRATION

LOW FOAMING TO BOOST PRODUCTIVITY

HARD WATER CONDITIONING

**FOR VARYING
CONDITIONS**

Reliability You Can Count on Backed by 35 Years in the Field

Silwet* products are the industry standard multifunctional spreaders and penetrants. Used in the field since the 1980s, Silwet products have earned their reputation for complete coverage and maximized spray treatment effectiveness. From its origins as the first tri-siloxane spreader on the market, Silwet products are available today in a wide range and in advanced formulations expertly developed to give you the performance you need.

Key Features and Typical Benefits

- Low-drift formulations minimize waste
- Low foam products help save time and increase application efficiency and risk to surrounding plants
- Film forming for rainfast coverage with low penetration
- Hard water conditioning
- Works with advanced application methods such as drones
